

# 2017 Western K-5th Grade Science Fair

The Western K-5 Science Fair will be held on Wednesday, April 19th in the Elementary Gym. There will be 2 divisions-grades K-3 and 4-5. Ribbons will be awarded to each participant.

An entry form is attached and MUST be returned to your child's teacher by Thursday, March 23, 2017. This form will let us know how many spaces we will need, how many tables to reserve and an approximate amount of awards. **No entries will be accepted after this date!** Once a form is turned in, your child will receive an Elementary Science Fair Planning Guide packet. Follow the easy steps and guidelines in the packet and your child will create a wonderful, award winning science project, thought up entirely by themselves and become a scientist!

A copy of the Elementary Science Fair Planning Guide will be available online at our school's website.

All projects will need to be set up on Tuesday, April 18th anytime from 3:00-6:00 p.m. according to the packet's instructions or Wednesday, April 19th by 7:55 a.m. Judging will take place Wednesday morning. Students will be called down to present and explain their projects to the judges from 8:00 a.m. to 12:00 p.m. Ribbons and overall winners will be announced during the Spring Choral Program. Please complete the bottom portion and return it to your child's classroom teacher by Thursday, March 23, 2017. The rubric and some science fair websites are attached to help you and your child decide if you want to participate.

**By completing this form you are committing yourself to creating and turning in a wonderful science project.**
